

Self-Reporting Air Purifier

Innovation dossier - 1. The idea

PROPOSITION

INVERT applied to the real 'Customer service / returns / warranty' friction: Feasibility precedent (from the trend corpus, not a consumer-evidence consequence): No real technical or regulatory document in this 12-document corpus addresses warranty/service-contact process design - this is a real gap, not an oversight: proactive-contact and no-ticket-replacement are organizational/process changes, not technology builds, and this pipeline has no real Versuni service-organization capability data to assess execution feasibility. Rating reflects LOW technical complexity only; organizational feasibility is genuinely unassessed here.

THE DERIVATION - THREE PARTS, EACH LABELLED

1. Reality OBSERVED

0.34% of trusted reviews (36 reviews across 19 real products) carry this friction, with a -2.429* average rating gap. Signal: Customer service and warranty handling - a real, operational issue, not a research question.

2. Transformation METHOD_CHOICE

METHOD CHOICE, not evidence: the authored operator table assigns INVERT - "Act before instead of after." - to this friction. Analyst design judgment, applied deterministically.

3. Product consequence FEASIBILITY_PRECEDENT

Feasibility precedent (from the trend corpus, not a consumer-evidence consequence): No real technical or regulatory document in this 12-document corpus addresses warranty/service-contact process design - this is a real gap, not an oversight: proactive-contact and no-ticket-replacement are organizational/process changes, not technology builds, and this pipeline has no real Versuni service-organization capability data to assess execution feasibility. Rating reflects LOW technical complexity only; organizational feasibility is genuinely unassessed here.

PARENT PATHS

No parent paths - this innovation cites no tension or assumption paths; its grounding is the friction evidence on page 1.

evidence ids: taxonomy:customer_service

DESIGN DNA

F consumer friction (taxonomy:customer_service) PRESENT

Real Amazon review-text friction theme (see Consumer Pain methodology).

O design operator METHOD_CHOICE

Authored operator vocabulary applied deterministically (METHOD_CHOICE, not evidence) - see OPERATORS/THEME_OPERATORS in src/real/magic_box_real.py.

S signal (customer_service) PRESENT

Customer service and warranty handling - a real, operational issue, not a research question.

T scientific tension MISSING_UNVERIFIED

No real research tension shares a paper with this theme's signal evidence.

R rival gap MISSING_UNVERIFIED

No real competitor-weakness data clears the white-space threshold for this theme.

C versuni capability MISSING_UNVERIFIED

No real Versuni internal capability/org-readiness dataset exists in this pipeline.

A category assumption MISSING_UNVERIFIED

No category assumption shares a paper with this theme's signal evidence.

E economic condition PRESENT

Real price-weighted exposure computed for this theme (\$8,124.56).

ECONOMICS - RELATIVE INDICATORS ONLY

price-weighted exposure: \$8124.56

SUM of real observed listed prices across affected reviews with a known price. This is a RELATIVE exposure indicator, not a revenue or market-size estimate - it has no units-sold, conversion-rate, or time-period basis. It answers 'which friction touches more expensive products' not 'how much money is at stake per year.'

comparable market median: \$249.0 (n=11 products) - not this concept's price

MEDIAN real listed price across the 11 distinct real products affected by this friction that have a known price. This is what products in this segment actually cost today - not a proposed price for a new concept, which this evidence cannot establish.

category assumptions: No category assumption shares a paper with this theme's signal evidence.

UNCERTAINTIES

- No real Versuni service-organization capability data (support headcount, current SLA, return-logistics cost) - organizational feasibility is genuinely unassessed, not just unfavourably assessed.

CONTRADICTIONS

- none recorded for this innovation

OBSERVED VS ESTIMATED VS UNKNOWN

observed: friction stats; envelope: performance cadr m3h, room coverage m2, acoustic min dba; DNA F/S/E

method choice: operator, archetype design rule; DNA O

unknown: envelope: target mass kg, target power w, target dimensions; persona; DNA T/R/C/A

Where this idea stands: **REJECTED - GRAVEYARD**
Killed in the Magic funnel: Not enough real complaint evidence - 0.34% is below the 0.5% floor.

PROTOTYPE STATE

CONCEPT_VISUAL
CONCEPT_VISUAL means a schematic exists, nothing more: no digital model, no physical prototype, no test data.
Machine-composed schematic from the innovation's stored fields only (operator rule, friction stats, comparable envelope). Not a design rendering; a Fable render or drawing would also be CONCEPT_VISUAL, never a digital model or physical prototype.

NEXT EXPERIMENT

Real internal service-capacity data would let this split into a proper technical-feasibility rating plus a separate, currently-missing organizational-feasibility rating.

KILL CRITERION

No authored kill criterion yet - a non-formal innovation earns one by displacing the formal recommendation (Scenario lens) or by a human decision to invest.

CRITIC DIMENSIONS

EVIDENCE	REJECT	Consumer Pain evidence-sufficiency gate failed - no real, materially-prevalent friction to build against.
ECONOMIC	CHALLENGE	Real price-weighted exposure (\$8,125) is below the corpus median (\$16,113) - a real but comparatively modest signal.
COMPETITIVE	NEEDS_EVIDENCE	No real rival-weakness data recorded for this friction theme.
HUMAN	NEEDS_EVIDENCE	No real usability/human-factors evidence exists in this pipeline for this concept.
PHYSICAL	NEEDS_EVIDENCE	No real lab/engineering feasibility data exists in this pipeline for this concept.
VERSUNI_FIT	NEEDS_EVIDENCE	No real organizational-capability assessment exists in this pipeline for this concept.
TIMING	NEEDS_EVIDENCE	No real market-timing/window evidence exists in this pipeline for this concept.
ROBUSTNESS	NEEDS_EVIDENCE	No real sensitivity/robustness study exists in this pipeline for this concept.
critic overall: REJECT		

CRITERIA RESULTS

NEEDS_EVIDENCE: 36 - PASS: 8 - N/A: 4 - CHALLENGE: 2 - KILL: 2		
E3	CHALLENGE	Signal state SINGLE_SOURCE_FAMILY - real, but not yet independently corroborated.
H2	KILL	gate_passed=False
C1	KILL	Not white space.
F3	CHALLENGE	medium
